

STATEMENT OF WORK
Residue Management – Seasonal (344)
TENNESSEE

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. Practice standard criteria-related computations and analyses to develop plans, specifications, and operation and maintenance plan including, but not limited to:
 - i. Results of erosion calculation using RUSLE2.
 - ii. Planned residue amount.
 - iii. Orientation of residue as planned with RUSLE2.
 - iv. Distribution of residue.
 - v. Timing of soil disturbance.
 - c. Evaluation and completion of TN-CPA-25, Environmental Effects for Conservation and Areawide Plans.
2. Certification that the design meets practice standard criteria and complies with applicable laws and regulations.
3. Design modifications during application as required.
4. Written plans and specifications, including sketches and drawings, shall be provided to the client that adequately describes the requirements to install the practice.
5. Residue Management Job Sheet.

INSTALLATION

Deliverables

1. Pre-application conference with client
2. Application guidance as needed
3. Facilitate and implement required design modifications with client and original designer.
4. Certification that the application process meets design.

CHECK OUT

Deliverables

1. Records of application.
 - a. Extent of practice units applied.
 - b. Actual amount of residue present during critical period to meet targeted standard criteria as compared to RUSLE2 management.
2. Certification that the application meets NRCS standards and specifications and residue is spread at the rate of 80 percent over the entire width.
3. Progress reporting.
